

## TYPE 72

**In 1939, the Type 72 was listed as being CONFIDENTIAL.**

**It was a W/T set to do with the communications between an aircraft carrier and her planes on higher than normal [at that time] VHF frequencies and using voice [R/T] which still had not been perfected by the Admiralty Signal Establishment.**

**We have no information on these set but we do know that the Type 72 was fitted into the *Ark Royal, Courageous, Eagle, Furious, Glorious and Hermes.***

**The Type 72D was fitted in the *Formidable* and the *Indomitable.***
